

TAING LINN MAUNG

FRONTEND & FULL-STACK DEVELOPER

slprogramming.dev@gmail.com • 09-959421909 • github.com/SLprogramming • taing-linn-maung.vercel.app • Yangon, Myanmar

PROFESSIONAL SUMMARY

Results-driven Frontend & Full-Stack Developer with 2+ years of professional experience engineering high-performance web applications and interactive platforms. Specialized in React, Vue.js, TypeScript, and modern state management, with proven expertise building secure fintech POS modules, real-time dashboards, and full-stack ecosystems using Next.js and Node.js.

TECHNICAL SKILLS

Frontend	React.js, Next.js (SSR & App Router), Vue.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
State Management	Zustand, Redux Toolkit, Pinia, Vuex
Backend & DB	Node.js, Express.js, Laravel, Prisma ORM, PostgreSQL (Neon), MySQL, MongoDB, Redis
APIs & Security	WebSockets (Socket.io), RESTful APIs, JWT, Better-auth

WORK EXPERIENCE

Frontend Developer | Future Innovation IT

June 2024 – Present

Interactive Media & Fintech Platforms

- Developed frontend features for an AI-powered media generation platform using Vue.js and Tailwind CSS, establishing high-performance media dashboards and responsive UI layouts.
- Architected real-time deposit/withdrawal and automated cash account modules integrated across multiple financial institutions with sub-second UI synchronization.
- Engineered comprehensive admin activity dashboards, agent tracking analytics, and incentive referral systems to support user acquisition scaling.

Frontend Developer | K Win Technologies

July 2023 – April 2024

Healthcare POS & Finance Modules

- Developed and optimized operational POS systems and clinical slip printing modules for major healthcare institutions, including Cherry K Clinic and Denovo Clinic, using React.js and Vue.js.
- Implemented operation-critical features including custom multi-tier voucher structures, complex discount models, and automated tracking metrics.
- Improved application performance and codebase maintainability by authoring modular, reusable UI components and enforcing type-safe payload guidelines.

KEY PROJECTS

DevCommunity Platform

Tech Stack: Next.js, React, TypeScript, Prisma ORM, PostgreSQL, Better-auth, Tailwind CSS

- Architected a developer community platform featuring multi-provider authentication (Google OAuth, Email OTP), Vercel Blob media uploads, and transactional email notifications.
- Designed a secure JWT authentication flow with an automated token refresh queuing strategy (Axios) to handle concurrent request retries and multi-device session control.

MovieApp & Real-Time Media Platform

Tech Stack: React, Node.js, Express, Socket.io, Zustand, MongoDB

- Integrated TMDB API with Zustand and Redux Toolkit to support optimistic UI updates, custom infinite scrolling lists, and server cache invalidation.
- Implemented sub-second Socket.io pipelines for live support messaging, instant purchase approvals, and dynamic premium status synchronization.

EDUCATION

Diploma in Web Development (CFE Customised Qualification)

Jan 2026 – Expected June 2026

Y-Max University College (YUC)
